Wrote to him, & advised him to come by the boat Friday night.

BOSTON, May 25,

My dear Wendell:

I am may, perhaps, act upon your suggestion to take the propeller at Providence for New York on Friday evening; in which case you may expect to see me in the Nation office on Saturday morning on your arrival from Orange. But it is more probable that I shall leave Boston on Saturday morning by the Springfield and New Haven route, as usual. This will leave you in no uncertainty as to which route I shall finally choose; for if you should not see me Saturday forenoon, you will know that I shall be on hand in the New Haven train. If it would be more desirable to you that we should get out to Orange earlier than we can if I delay coming till Saturday P. M., I will arrange to leave Friday P. M. Please let me have a line from you.

All well at home.

Your loving sire.
